

## CENSUS 2020

**PLEASE COMPLETE YOUR CENSUS INFORMATION AS SOON AS POSSIBLE**

### THIS IS WHY:

The 2020 Census will provide a snapshot of our nation—who we are, where we live, and so much more.

The results of this once-a-decade count determine the number of seats each state has in the House of Representatives. They are also used to draw congressional and state legislative districts.

Over the next decade, lawmakers, business owners, and many others will use 2020 Census data to make critical decisions. The results will show where communities need new schools, new clinics, new roads, and more services for families, older adults, and children.

The results will also inform how hundreds of billions of dollars in federal funding are allocated to more than 100 programs, including Medicaid, Head Start, block grants for community mental health services, and the Supplemental Nutrition Assistance Program, also known as SNAP.

The results of the 2020 Census will inform decisions about allocating hundreds of billions of dollars in federal funding to communities across the country—for hospitals, fire departments, school lunch programs, and other critical programs and services.
