## The Township of Manchester Energy Aggregation Procurement Cooperative (MEAPC)

MEAPC Program Update  
March 2024

---

**Manchester Township, as the lead agency of the Manchester Energy Aggregation Procurement Cooperative (MEAPC) recently completed a two-year contract with Energy Harbor for electric supply. The two-year contract commenced in December 2021, and ended in December 2023. Unfortunately, prices were not sufficiently favorable to award a new contract this fall, and residents were returned to utility service at their December 2023 meter read. The JCP&L Basic Generation Service energy supply rates remain the best option for Township residents for the near term.**

**The Township of Manchester and their energy agent, Gabel Associates, have been closely monitoring the energy market for savings opportunities and are planning to bid for a new energy supply contract this spring. An award will be made only if bids received are lower than JCP&L's energy supply prices. The Township will notify residents if a new contract is signed, and the program is again active. Please monitor the Township's website for any updates.**

**The Township of Manchester is aware that suppliers may be reaching out directly to individual residents to offer supply contracts. The Township recommends that residents instead wait for a new MEAPC supply contract as a new contract, if awarded, will be compared to JCPL energy supply prices to make sure that residents will save some money vs. utility rates.**
